

PROJECT UPDATE: Edwards Interchange
For the Week of May 22, 2011

We're getting close...

Next week will be significant for ACC as we finish work items from concrete pavement, permanent striping, construction of sidewalks, curb & gutter, installation of light poles, guardrail work, and signage leaving basic punch list items for the following week. Drivers should still anticipate flagger manned traffic control during construction hours but there will always be one lane of traffic flowing in each direction. ACC is scheduled to be off the site by June 6, 2011.

Thanks for all your support as we button down a challenging but great project.

ACC will alert you to any significant traffic delays but also encourage you to check our hotline at 970-949-1102 or the CDOT website for more information <http://www.coloradodot.info/projects/i70edwardsinterchange>. Alternatively, you may contact our public information office at 970-566-6912 or via email at EdwardsInterchange@accbuilt.com.
